

Waterless Wash

Mxalt Waterless Wash is an easy to use car care product that you can Spray On, Wipe Off the dirt and Wipe to Dry & Shine, Clean, Polish & Protect your car with using less water only, virtually anywhere/ anytime, wet or dry, indoor or outdoor. Our high performance water-based Mxalt Waterless Car Wash Products are a safe, biodegradable alternative to using soap and water. Mxalt Waterless Wash ensures a brilliant shine, UV protection and easy removal of dirt and bird droppings. Saves water and time. Keeps the surrounding Clean. Without the water stagnating.

Features:

Mxalt Waterless Car Wash prevents tiny feather scratches from occurring by protecting the finish while the dirt is still on it. When sprayed on a dirty surface, it shrinks the dirt particles and lifts them off the surface which can be safely wiped away with a micro fibre towel without the risk of scratching the surface. Gentle buff with a second micro fibre towel leaves behind a flawless showroom shine and protection.

Directions for Use:

Shake well before use.

Remove any heavy mud or dirt.

Spray a small amount (2 or 3 sprays) onto one section at a time, lightly mist onto vehicle.

Gently wipe off dirt with a clean microfiber towel (side-to-side motion).

No water required, easy spray on, wipe off cleaning.

For best results, apply in shade or out of direct sunlight.
