- High absorption & cleaning power without any chemicals.
- Absorbs more than a traditional terry towel.
- Premium, no scratch edging.
- Washable & reuseable
- Non scratching & Lint free
- Quickly entraps dust, sand and other material clinging on to glass & Paint surfaces.

Applications

Axalt Pro Micro fibre cloth is made up of Polyester & polyamide. It is very fine, strong and doesn't leave lint on the surface after cleaning. Each fiber is 200 times finer than a human hair. The cleaning and polishing cloth is suitable for all smooth surfaces, such as glass, chrome, paint, plastics etc., which gives car windows or paint surface a lint free finish. Extraordinary soft touch with Luxurious and miraculous cleaning.

Care instructions : Machine wash with similar microfibers only. Do not use bleach or fabric softeners as it breaks down the microfiber and removes the static effect. Tumble dry on low heat.

Do not dry in direct sunlight and do not put in dryer. Do not wring hard after rinsing.

Can be hand washed or machine washed.
