

## Engine Crane 2 ton

Art No : AX 3101096

- Foldable engine crane with single piston hydraulic pump. Four pre-set positions for lifting
- This shop crane with a robust construction is an ideal choice for lifting engines from vehicles or moving heavy loads in the workshop.
- Side pump access with a removable handle.
- The hydraulic shop crane, made of high quality steel, ensures excellent durability and a long service life.

- The crane includes a ram, a chain and a hook, and offers a maximum lifting capacity of 2 tons. Lifting height can be adjusted up to 82.7 inches.
- 6 swivel castors provide smooth and easy maneuvering around your work space.
- The lifting crane is easy to assemble and disassemble.
- It is also foldable for easy transport and space-saving storage.

## Vertical Transmission Jack

Art No : AX 3101097

- This hydraulic jack is used for removing, installing and transporting auto parts.
- Its main use is for raising and lowering transmissions and gearboxes in both front and rear wheel drive vehicles.
- This jack can also be used for raising and lowering petrol and fuel tanks, exhausts full and partial systems, rear axles, trans axles, subframes, steering racks and suspension components.
- Foot pedal operation keeps hand free.
- Telescopic versions available for reduced clearance lifts.

- Lead-free paint finish is applied after a thorough chemical wash to ensure a long-lasting finish and to help prevent rust.
- High quality large diameter hydraulic steel cylinder unit results in lower oil pressure needed to move the load, which helps to reduce wear and extend service life.
- Piston Ram extensions 2 stages and is treated and Polished to resist skiving.
- Capacity 500 kgs.
