

# 2 Post Hydraulic Lift

**Art No : MA 3101113**

TECHNICAL SPECIFICATIONS	
Operation	Electro-hydraulic
Capacity	4000 Kg
Lifting height	»1850mm
Minimum Height	110mm
Lifting Time	50 Sec
Lowering time	40 Sec
Overall Height	3605mm
Overall Width	3426mm
Passing Width	2576mm
ELECTRIC SPECIFICATIONS	
Electric motor power	2,2 kW
Voltage	3ph. 400V trip.+/-5%
Frequency	50 Hz
Noise	<80Db

## Hydraulic Electro 2 post lift

Electro hydraulic lift for hydraulic Lift for 4 Wheelers raises vehicle to any comfortable working height up to 6 feet, leaving head room for complete under complete under chassis access. Ideal for muffler repair, rust proofing operation, transmission repair and any other repair calling for a wheel free condition. Designed based on the international standard, meeting the demand of the garage and Workshop.

### Special Features:

Post column is one piece design, much stronger and safety.  
 Motor having Aluminum shell for better thermal dissipation.  
 Oil Tank in Steel (for more safety).  
 CE standard.
